

HEADWRAPPERS' STEP BY STEP SCARF TYING GUIDE **THE NO KNOT SIDE RUFFLE**

You Will Need: A square scarf (1m square), a long thin scarf (approx 100 x 20 cm) (optional) and an elastic band or scrunchy. The scarves are the same as our complimentary ones.

Step 1 Take the square scarf and fold it into a triangle. Place it sideways on the head with the point of the triangle going over one shoulder.

Step 2 Gather the scarf with one hand, by your ear, on the side with the pointed triangle section of scarf. Have an elastic band ready in your other hand.

Step 3 With your other hand pull the scarf through the elastic band making sure it is pulled close to your head. Twist the elastic band and then pull the scarf all the way back through the band. Repeat, but this time only pull the scarf 1/2 way through the elastic band. This will depend on the size of the elastic band/scrunchy used.

Step 4 You are left with a ball of scarf at the side of your head and the tail of the scarf hanging down. By gently peeling the layers of scarf away from the ball a flower effect is formed.

If you wish you can take the long thin scarf and tie this around the elastic band adding a further embellishment to the scarf. This also helps to make the scarf feel more secure.
