

## **HEADWRAPPERS' STEP BY STEP SCARF TYING GUIDE**

### **THE ROSE TOP KNOT**

**You will need:** A 1m square scarf, like the free scarf we send out.

**Step 1:** Take the square scarf and fold it into a triangle.

**Step 2:** Bending forward, place the scarf on your head with the long straight side of the triangle at the back of your head and the point coming over your face. Bring the two tails forward and tie once over the pointed section of scarf.

**Step 3:** Tuck the pointed part of the scarf into the knot creating a roll, then twist the tails, one at a time may be easier, and wrap them around the roll close to your head. The ends should tuck into the top knot and it should feel very secure.

If you wish you can twist the whole scarf on your head so that the top knot is on one side, or at the back of the head.
